# FIBERGLASS QUAD STREAM

## RECYCLING BIN

Looking for **attractive recycling bins** for your boardroom, offices, hallways, lunchrooms or lobbies? Consider recycling bins made from fiberglass: with a depth of only 15.25" their small footprint will work anywhere in your facility. Add your corporate logo or recycling message for a **unique & stylish recycling bin**.

These bins have **durable rigid liners** made from fiberglass. Rigid liners act as a back up system for bag breaks: containing any liquids & keeping your waste streams intact. This allows for **ergonomic & efficient emptying**. Also, these recycle bins can be ordered without liners for bag only operation.

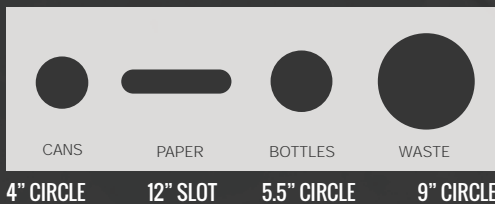

Choose text only labels, photo labels or both: **customize labels in any language, size or color**. With a wide color palette, match your bin with existing interior designs. Also, further customize your bin with a two-tone look by selecting an alternate color for your fiberglass recycling bin's top or base.
