# HENDRIX R-2

## TRIPLE STREAM

This attractive quality made indoor recycling container is made entirely from solid 304 grade, 16 gauge stainless steel with a #4 satin finish. Highly scratch and dent resistant; this receptacle ensures long service. The Hendrix R-2's footprint is ideal for high traffic spaces with high volume including Atriums, Lobbies, Boardrooms / Conference Rooms, Cafeterias, Lunchrooms / Breakrooms, Corridors / Hallways & Office Areas.

The hinged top with gas springs allow for easy ergonomic emptying; including 3 equal size interior leak-proof & fiberglass liners with finger grommets. The 4 adjustable gliders let the operator move & level the unit in any location.
