- All solid materials; no plating
- Easy access to interior liners via side door
- Adjustable Glides
- Customizable labels & corporate logo

LEAF DOUBLE STREAM

RECYCLING BIN

Attractive quality made Leaf recycling containers are made from **high end aluminum with a custom color powder coat finish**. Waste Wise Products' metal finishes & components are made from a **minimum 25% recycled material**. With a **wide color palette & metal finishings**, the leaf can be customized to match any architectural blueprint. Highly scratch and dent resistant; Leaf Recycling Bins are designed to **ensure longevity** of use.

Each receptacle comes with fixed two streams openings. Stream decals & receptacle logos are manufactured from **commercial grade vinyl for interior or exterior application**. Customize your leaf's labels to **ensure a successful corporate waste strategy** (i.e.: Recycle Only, Organics, Paper, Plastic, Aluminum Cans & Bottles, Waste etc).

With a **solid enclosed bottom & durable rigid liners**, your Leaf's liquids and waste streams will be intact. Also, the Leaf's rigid liners allow for **ergonomic & efficient** removal of your waste and recyclables.
