# VENUE SINGLE STREAM

## RECEPTACLES

The Venue Collection of Recycling Bins features coordinating Compost, Trash & Recycling Receptacles with **fully welded brushed stainless steel** and **contemporary perforated pattern**. With a **finger-print proof textured top & large capacity**, these containers are **ideal for high traffic indoor / outdoor areas**, including Building Entrances, Cafeterias, Corridors / Hallways, and Parking Garages & Lots. TRASH, RECYCLE, COMPOST or custom stream labels & logos are laser cut into the center of the body; giving your containers a sleek finish for any high end interior design or landscape architecture.

With a **full wrap-around rubber gasket**, your Venue's liquids, recyclables & waste will be intact. The individual LLDPE liners allow for **ergonomic & efficient** removal of your waste streams. The liner base resin meets UL94 flammability standard.
