- Removable top access
- Solid 304 grade stainless steel & high quality laminate finish
- Customizable labels & corporate logo

# ALMOND

## DOUBLE STREAM

This unique high end recycling bin gets its name from its “Almond” shape. Made of **solid 304 grade stainless steel**, the Almond is built for durability & design. The **removable top allows for easy emptying for both waste streams**. Each waste stream features a **fully enclosed rigid fiberglass liner**, keeping any spills of organics, waste or recyclables intact.

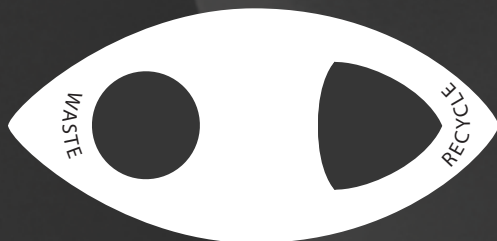

**Customize the receptacle’s look & feel for any interior design or architectural space.** The Almond comes in a **variety of metals**; copper, brass, bronze. Non-directional, directional, polished or antique finishes are available for each. Alternatively, **choose a high quality laminate finish for the Almond’s base.**

The Almond has an **ideal footprint for any atriums, lobbies, corridors, hallways & more.**

## SPECS
