CHAMPS ELYSEES

SQUARE DOUBLE STREAM

With a smaller alternative footprint than the Champs rectangular receptacle; **The Champs Elysees Square Recycling Bin** is named after the famous street in Paris, France; known for its luxurious atmosphere, the same elegance defined in this containers' design. Featuring a **seamless solid 304 grade stainless steel top, stylish corner guards, toe kick and vertical accents**, the Champs Elysees Square Double Stream not only looks great in any indoor design, it is built to last.

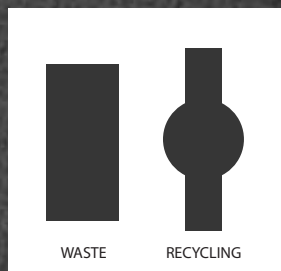

Customize the Champs the look & feel for any interior architectural space. Choose from many laminate finishes to match your décor. Also, customize this container with a **choice of unique metals**; copper, brass, bronze. Non-directional, directional, polished or antique finishes are available for each.

The removable top allows for **easy emptying for both waste streams.** Each waste stream features a **fully enclosed rigid fiberglass liner**, keeping any spills of organics, waste or recyclables intact.
