# GREEN STREET

## DOUBLE STREAM

The Green Street Double Stream's **versatile design & large capacity** make it ideal for outdoor high traffic areas. Formed entirely from **solid 16 gauge 304 grade stainless steel**, its designed to **highly resist denting, scratching**.

With **front loading openings and slanted top**, water will be kept out of your waste, recycling & organics. This bin's friendly **ergonomic design** allows easy access through front doors. Each, features **key lock entry**; keeping your waste secure. **6 leveling feet** allow your container to be placed on any uneven surface. **Rigid liners are included**. The Green Street's labels & recycle decals (one per door) are made from **commercial grade 3M vinyl**; black is the standard color.

Optionally, customize your containers in any of Waste Wise Products' high end metal finishes.
