

F1029 & W1015 Wipe Dispensers

F1029 Wipe Dispenser & Trash Can

The floor standing F1029 wipe dispenser and trash receptacle feature a top compartment for wipes; an attractive silk screened sign on a commercial Sintra sign panel to encourage use and a convenient side opening for discarding used wipes. Create a message of your choice or apply a logo to the top or side of the unit to enhance branding and promote a safer, anti-bacterial environment. With its sleek design, the F1029 series features a touchless "x"-shaped dispensing opening that allows only one wipe to be dispensed at a time. The F1029 is also available without a sign panel.

The unit's top features a two push button design allowing for a quick & easy refill of wipes. When done, the cover snaps back into place. To empty the trash compartment, lift the body off the base section to access the inner bucket. After removing the trash, slide the body back on the weighted base. No inner trash bag is needed.

W1015 Wall Mount Wipe Dispenser

The sleek wall mount W1015 wipe dispensers feature a touchless "x"-shaped dispensing opening that allows only one wipe to be dispensed at a time. Available with and without an attractive silk screened sign on a commercial Sintra panel to encourage use. Create a message of your choice or apply a logo to the top or side of the unit to enhance branding and promote a safer, anti-bacterial environment.

The unit's top features a two push button design allowing for a quick & easy refill of wipes. When done, the cover snaps back into place.
